the fence Liberal / National Parties & Labour Party.

## Humpty Dumpty Sat On The Wall – Humpty Dumpty Had A Great Fall!

- Not cheating and pushing Senator Christine Milne Greens Party Leader we will let her do it all by herself fall off the Wall.

## Lets Ask A Few Simple Questions?

- 1) Christine Milne says she represent The Greens, and cares about the Environment?

When has anybody ever seen her at a Forrest Protest meeting,  
being chained to a Tree with cops dragging her away?

Right!

Never!

**Right! Never!** \$20 Dollars to Margaret Smith over there, right Margaret if you look at Christine Milne with her **"Hair Do"** she gets done twice a week and the cloths she wears, she wouldn't get her fingers dirty, let alone be seen in the Environment?

So in just 3 easy questions asked we prove Senator Christine Milne **"A Fraud"** and the same with her **"Greens Party"**

The **"Mad Monk"** **Tony** Budgie Swimmers **Abbott**, Liberal Opposition Leader has more Environment care and concern in him then Christine Milne has.

Look at the Maps people and watch the Radiation spreading about the Northern part of the Globe, and this Radiation has been hitting the coast of California for the last 12 months.

Why hasn't Senator Christine Milne or any Green Party Members in Parliament asked Prime Minister Julia Gillard to put all citizens above the Gold Coast up to the top of Australia on Radiation sickness tablets – medicines?

Why hasn't the American Government done the same to USA residents?

Right!

I can hear a few people defending Christine Milne and the Government, if there was anything to worry about the Mainstream Controlled Media would report it.

Also the EPA would report things?

Oh Really friend?

Who This EPA?

### EPA Colluded in Coverup Of Decades Of Monsanto Poisoning

<http://blog.alexanderhiggins.com/2012/04/14/epa-colluded-coverup-decades-monsanto-poisoning-118281/>

New information reveals that EPA colluded with Monsanto's decades long cover up of the use of the highly toxic chemicals Agent Orange toxin in their herbicide.

### EPA Collusion in Monsanto Coverup

2,4-D and the dioxin pollution it creates are too dangerous to allow, period, but in the hands of bad actors like Monsanto and Dow Chemical the dangers increase exponentially.

What's the Environmental Protection Agency doing?

Helping coverup the chemical companies' crimes!

In February, Monsanto agreed to pay up to \$93 million in a class-action lawsuit brought by the residents of Nitro, West Virginia, for dioxin exposure from accidents and pollution at an herbicide plant that operated in their town from 1929 to 2004.

That may seem like justice, but it is actually the result of Monsanto's extraordinary efforts to hide the truth, evade criminal prosecution and avoid legal responsibility

There are few corporate actors on the international stage today with a more vile history of destroying and maiming human, animal, and plant life than has Monsanto.

## Christine Milne (Greens Leader) A Fraud – Paid Shill!

Coming back to the beginning I think we have well and truly proven Christine Milne (Greens Leader) A Fraud – Paid Shill!

Brought and paid for, none of the above has she brought up as a Greens Senator in the last 12 months or since she has been in the Parliament.

Which means she is a **"Fraud" – "Shill"** for the Corporations and siding with the other two corrupt political parties in Australia, deeds and actions speak louder than words, and her non actions has sealed her fate.

Senator Christine Milne Environment credentials you could write on a bit of dunny paper, because that's all it would be worth.

To the Greens Party in Australia all I can say is **"NEXT"** put up some other Bozo Clown for the Australian Greens as Leader.
